- Fatsia japonica 'Spiders Web'
 - Gaura linheimeri
 - Geranium maculatum
 - Geum 'Mai Tai'
 - Hebe Caledonia
 - Helenium 'Rauchtupas'
- Heuchera 'Beauty Colour'
 - Heuchera 'Shanghai'
 - Hydrangea 'Limelight'
 - Knautia macedonica

The garden:

This garden has been designed as a garden with a family in mind. It is a place to play, sit, relax and spend time 'living' outdoors.

The lawn is an integral part of any garden and allows multifunctional space, having a big role within a family environment. Made up of three levels, the lowest levels lawn is surrounded by planting, with a stunning sculpture and place to sit and contemplate.

The next level provides some seclusion with a half height boundary. A wooden sleeper bridge carries you above a sunken 'pebble puddle' pond and over to the main seating area.

The third level of the garden is the main entertainment space, containing feature wall panels, slatted fencing with a beautiful, lush living wall as you enter with a wooden sculpture.

About the designer:

After training as a Garden Designer, Pip Probert started creating gardens in 2005. With 24 RHS garden exhibits designed and built to date, Pip has won many prestigious RHS medals, best in shows and other awards over the years. Since starting her design business 'Outer Spaces Design Ltd' has gone from strength to strength, with the last few years proving to be the best yet.

After 13 years of Garden Design and Landscaping we are now entering a new era. Outer Spaces is proud to have Wez Salhouse, Construction Specialist as a partner in the business, allowing Outer Spaces to thrive further with a dedicated Hard Landscaping consultant with experience in all areas of construction and landscaping to manage the on site team. We are also pleased to say that we are registered as marshall's accredited landscapers.
